4 Dryclean.

### \*How to Level Wet-Side Stains

On the wet side, it is important to even out (level) moisture to help prevent spotting rings and fabric damage. To level:

1. After fabric has been rinsed and air-dried, apply SPOTLESS liberally to the treated areas.
2. Lightly tamp the wet area, including fabric area just outside of the ring.
3. Do not flush, rinse or dry.
4. Continue with drycleaning process.
